

Huntley Little League Scoreboard Usage Policy

(original: August 2015)

- **Huntley Little League has purchased and installed scoreboards at Stingray 1, Stingray 2, Warrington South and Warrington North fields. These scoreboards are intended to improve the overall game experience and enjoyment for all players, parents and others attending games at these fields.**
- **Usage of these scoreboards is restricted to teams involved in the Huntley Little League program unless express permission is granted by Huntley Little League.**
- **The Home team will be responsible for operating the scoreboard during all games. The Home team may designate a volunteer to operate the scoreboard during the game.**
- **The controllers are wireless and are rechargeable. There is a charging station located within the shed at both Stingray Bay 1 and Stingray Bay 2 as well as the Warrington fields. The wireless controllers are NOT interchangeable. The controllers for the scoreboards at Stingray Bay 1 and Stingray Bay 2 only work with the scoreboards located at Stingray Bay 1 and Stingray Bay 2. The same applies for the controllers and scoreboards at Warrington South and Warrington North.**
- **After completion of the game the scoreboard controller must be returned to the charging station in the storage shed closest to the field. It is the responsibility of the manager of the Home team to verify this is done after each game.**
- **If the controllers are not returned after each game and the Home team manager of the following game is not able to locate the controller then the Home team manager should advise their Division Director immediately.**
- **The Division Director will contact the Home team manager of the last game played at that field and investigate.**
- **If the controller is not located or returned then the Huntley Little League Board will need to purchase replacement controller(s). The Home team manager of the last game played at that field will be charged for the full cost of the replacement controller.**
